

Reduce your risk in the OR. Double up.

STATIC:
Intro/Title screen.
Simple content to set up the presentation about the importance of double gloving and having a blue underglove.

Motion Graphics: *continued...*
First animation shows illustration of single glove layer next to a double glove. Animation show needle puncture and text comes in with content (87% reduced exposure fact)

Your choice of underglove matters

STATIC:
Title screen to introduce the difference of a white vs. blue underglove.

INTERACTIVE:
This screen will have a “slider” which would allow the user to swipe between the white and blue underglove examples. The 1st state shows the white /white glove with a close-up of the puncture site. When the user slides the bar to the left, it reveals the blue/white gloving option and associated stats and facts.

INTERACTIVE:
After swipe to the right.
